Artkive stores images of all artworks stored in their secure cloud service, and if you prefer a less digital way to enjoy them, you can even order your favorites in luxury books on hardcovers, mugs and more. No more 3 x 5 cards! The quiz allows you to create your own virtual flashcards to make study sessions with your child easier, or choose from millions of options. When your child has finished their studies, they can switch to test mode to make sure there will be an ace quiz. Available for both iOS and Android. Advertising can't keep your birthmarks and molts straight? This iOS app includes expanded definitions of a huge number of scientific concepts, along with links to more information if a topic arouses your child's interest. Help your child score high on his next Spanish test (and pick up a little Espanol of his own) with this fun and free app. MIT built this free app for children ages 6 to 8 to introduce them to the basics of coding. Kids snap together blocks to help characters move, dance and sing as part of interactive stories and games. For iPads or Android tablets only. Advertising If your child takes on the Bard, this simple program offers all his works, search functions so that you can find where certain sayings appear-and most importantly, a dictionary that defines all those archaic words that appear in his games and sonnets. Make building that research paper bibliography a breeze: Just copy and paste the URLs or scan the books' barcodes into an app, set the style, and it will compile a bibliography for you. Never miss a homework or have a panicked project all night with this simple app that tracks and prioritizes tasks, tests, and more. If your technology-friendly teacher uses an accompanying site, Teachers.in, tasks may also automatically appear in your child's feed. Advertising Reduce the cost of story time and trips to the library with OverDrive Media Console. The application allows you to borrow e-books from a selection of public and school libraries. Credit: Courtesy of WebMD If your child wakes up feeling under the weather and unsure whether to send him to school, simply punch in his symptoms on WebMD Mobile. The app can help determine if you need to call a doctor and keep a small home. As a parent, you know how hard it is to raise a child. But nowadays everything has changed thanks to smartphones and we can do using a smartphone. So why not use a smartphone to make a parent's life more comfortable. With more more The 6000 android app releases everything, it's a challenging task to find and extract the best parenting app for you. But don't worry, we'll make it easier for you. We list down the top 5 best apps a parent should use for their children. 1. Baby Connect: Activity Log: Baby Connect is the best app for parents with newborns. Anyone who has a newborn baby at home knows how difficult it can be to keep up with feeding times, changing times, sleep routines, etc. All this information can easily be found in baby connect. In addition, all your data is automatically backed up to their web application, so if you lose your device, you can restore your old backup. 2. Cozi Family Organizer Cozi app will help you keep you and your family completely organized. Although the app has some functional problems, however, it's still a great tool to use to stay on top of things and keep your family organized. 3. WebMd When your child is not feeling good, this can be a scary experience. WebMD is the best application to use when you need to diagnose and treat your child's common health problems and discover useful information about important health issues. Just look up any symptoms and WebMD can provide you with useful information. 4. Find my children Anytime you have lost your child for some time, then this is a difficult time for parents. Therefore, there is no other application more important than the one that tells you where you can find your child at any given time. Find My Kids is the best locator app available. Using Google Maps in real time makes it easy to track your little ones and keep them safe. 5. Where am I If you are planning a trip with your child, you need to tell him about where I app. This helps you track your child and shows your longitude and longitude location. Your child can also share their location with you easily with this app. This post comes from the community today parenting team where all members are welcome to post and discuss parenting solutions. Join us. Because we're all in this together. Check out 15 of the best iPhone apps for busy parents, from budget and chore trackers to meal-time planners. in-Homeopathy is an at-your-hand guide to treating first-aid emergencies, childhood ailments and common illnesses. User Review: This is a very useful application for health-first-aid questions that come all the time with my family and my patients! No more looks in the books. Thank you for creating a quality application! --cr38m (5 stars) Advertising Advertising Baby Brain has unlimited data or activities of your child. Log in when your child has been fed, changed, slept, or needed medication. You can also use this app for multiple children. User Review: Just don't cut an app I had before. He has everything I need to watch my baby: diapers, bottle and breasts, sleeping, this app is great! -- wadoryguru (5 stars) Keep monitor weight and growth, record all pathways to the doctor and maintain maintain your child's events on your phone. The latest feature of BearBaby is sound recording. User Rating: Well done. Just regret that the iPhone and these programs didn't exist when my older kids were smaller. Now I'm using this app for my sweet Jennifer. I hope to show her everything later (she's only 1 now). - Pranks Mad (4 stars) Advertising Baby Pack & Go is an extensive packaging and travel checklist tailored for parents and caregivers. If the item does not exist in the catalog, you can add it. This app also comes with ready-made lists for a really busy family. User Review: This app is exactly what my wife and I were looking for. Being organized is not my forte. However, with this app I'm sure I'll be much more organized and less frustrated whenever we go out with a child. - Reg and Liza (5 stars) baby monitor directly on the phone. Babyphone will call a preset phone number to let you know that your baby is awake. Set the sensitivity function above and notify you if it moves at all. User Rating: This is awesome. He works like a pro. I use it every day. No matter where our 4 month old sleeps he can call me when he wakes up. I have a sensitivity appeared, and if he even spits out his paci house the phone rings. - Lafamac (5 stars) As a new parent, sleep may be a thing of the past, but MagicSleep will help you and your child sleep well. This app restores sounds inside the uterus that soothe and make it easier for you to sleep. Babies, children and adults fall asleep faster and deeper. User Review: My 5 month old struggled to sleep terribly. I tried the lite version on it and it was amazing. Extinguish it usually in less than one minute. So I tried it on myself and WOW! Great for reassuring power naps or good solid sleep. Best sleep aid on the market!!!! --beausmom (5 stars) Advertising Advertising Application Family Matters is designed to help you engage all your family members at any age. Some questions and activities are simple, while others are deeper and probing. You can choose from hundreds of location-controlled activities. User Review: This is what we needed. It solved the problem and added a little fun when we go to dinner. No more begging if they can play video games in the restaurant while we wait. We're talking now. --blexyz (5 stars) Bank of Mom, set up bank accounts for each of your children. With these, your children can withdraw and save while learning the importance of financial responsibility. User Review: My wife and I had a chart in the kitchen to track this type of stuff. This is quite useful while on the go. Especially with two kids in the mall. --Fallsizespare (5 stars) SurfBalance combines a fun, full-screen mobile web browser with unique parental control features that go beyond filtering web pages. You can direct, restrict, and verify your child's use of the site. User Found this new app after a running battle with a 9 year old travel site on my real peace of mind by blocking inappropriate sites and suggesting a lot of really fun and interesting new sites. --Calif mom22 (4 stars) Advertising Potty Chart is a potty training aid set up as a simple and effective rewards system to encourage your toddler to use the restroom. It also features resource tips on when to start potty training, what to avoid, and what to do when your child resists. User Review: I'm just starting potty training my son, and that was a big help. She loves the motivation and praise she gets, and it's even better that it's 'on mommy's phone!' Thanks! - Momtwithree (5 stars) HomeBudget is tracking expenses to help you budget, sign up and control your monthly expenses. You can set a budget and make sure you're on track to stick to it. User Review: Wonderful application. Detailed. I love subcategories. Photos of income is an amazing thing, especially those with a guarantee. It's much easier for me to find the original receipt. --Dallasrags (5 stars) Chore Bank allows you to create a virtual bank account for each of your children. You can set up a chore list and assign a monetary value to each chore. As your children finish assigning them money to their bank accounts. User Rating: This is a wonderful program! It's by far the best post app. My kids clean like crazy! We've also added behavioral work. --Sturlep88 (4 stars) Advertising DadLabs is a edgy and informative video network for dads and women who love and/or tolerate it. It includes tips and advice from veteran dads on parenting, fatherhood, children and their wives. Tune in to the questions of the day. User Review: I love this app. Finally parenting help from men. These are amazing videos that provide great information about being a dad. These videos make it okay to be a guy and a dad. --Aaron2772 (5 stars) This emergency app contains all the medical information for your family members and phone numbers of family, friends and doctors. User Review: The strictest TCE program available. I'm impressed with the current version and can't wait to see the updates. --_jestor_ (4 stars) iFood Assistant brings recipe of the day and idea for dinner tonight. Recipes are simple, include photos and tips and a list of foods available for you. User Review: This cookbook app is fabulous! Extremely well designed interface?can not recommend enough! --Gerard k (5 stars) Advertising Advertising
